DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Sunday, 25 April 2021 at 05:30 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Very isolated pockets of Moderate air pollution may occur, these most likely across the Western Isles and southern Scotland, but predominantly Low levels of air pollution will occur across the UK today.

Tomorrow: Air pollution will generally be Low across the UK on Monday. Isolated pockets of Moderate may occur, these most likely across the Western Isles and possibly around the East Anglia coast.

Outlook: Air pollution levels will be generally Low across the UK during the period. Some isolated pockets of Moderate air pollution are possible at times, especially in the Western Isles and some eastern coastal areas of England.
